Review of operations

The net loss for the financial period after income tax expense was \$1,213,946 (31 December 2006 \$687,596).

The Company's principal assets are its exploration and mining licences in Victoria. The Company is actively exploring its tenements for commercially viable deposits of gold and base metals and plans to participate in further geological studies, geochemical and geophysical surveys and drilling activity in the 2008 financial year.

The Company's primary exploration focus during the half year was the Nagambie Project. Drilling of the old Nagambie heap leach pad gave lower assays than had been targeted. Geophysical surveys, contouring of all available drilling results and geological interpretation of the area surrounding the old open pits led to a better understanding of the mineralisation style and the structural development of the mineralisation at Nagambie.

Geological, geophysical and geochemical work was carried out over other selected licences at Castlemaine, Redcastle and Taradale. The results of these programs are currently being evaluated and correlated with earlier work to determine the next phase of exploration in these areas.

The new management team is currently reviewing all previous exploration strategies and data in order to focus on those prospects with the greater potential to host economic mineralisation. Drill testing of the higher priority prospects is planned for the June 2008 quarter.

Further information on the likely developments in the various operations/licences of the Company and the expected results has not been included in the report because the reviewing process is continuing and the Board of Directors consider that the release of further information at this time may unreasonably prejudice future actions of the Company.

As the Company is listed on the Australian Securities Exchange, it is subject to the continuous disclosure requirements of the ASX Listing Rules which require immediate disclosure to the market of information that is likely to have a material effect on the price or value of Panaegis Gold Mines Limited's securities.

New head office arrangements and the Board and management changes instituted in recent months will reduce corporate overheads for the company by over \$0.5 million per year going forward. In total, the company is now operating with eight fewer head office employees, directors and consultants compared with the position at September 2007.

Auditor's independence declaration

The auditor's independence declaration is included on page **5** of the half-year financial report.

Signed in accordance with a resolution of directors made pursuant to s.306 (3) of the *Corporations Act* 2001.

Independent Auditor's Review Report to the members of Panaegis Gold Mines Limited

We have reviewed the accompanying half-year financial report of Panaegis Gold Mines Limited, which comprises the balance sheet as at 31 December 2007, and the income statement, cash flow statement, statement of changes in equity for the half-year ended on that date, selected explanatory notes and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the end of the half-year or from time to time during the half-year as set out on pages 8 to 13.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation and fair presentation of the half-year financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This responsibility includes establishing and maintaining internal control relevant to the preparation and fair presentation of the half-year financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of an Interim Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2007 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of Panaegis Gold Mines Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Deloitte.

Auditor's Independence Declaration

In conducting our review, we have complied with the independence requirements of the Corporations Act 2001.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Panaegis Gold Mines Limited is not in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2007 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.
